

# Correction to “Inference of Regular Expressions for Text Extraction from Examples”

Alberto Bartoli, Andrea De Lorenzo, Eric Medvet, and Fabiano Tarlao

---

◆

THE authors of “Inference of Regular Expressions for Text Extraction from Examples” which appeared in the May 2016 issue of this journal [1] would like to point out a typographical mistake. In Section 4.1.1, on page 1221, top of the right column, one of the predefined labels available for representing a tree was described incorrectly. Label **concatenator** (**\*\*\*\*\*\***), does not exist and its correct version is **concatenator** (**\*✕\***),
